AB-

THE LEAST COMMON TYPE

1% OF THE POPULATION

Only patients with AB positive or negative can receive your red cells.

Your type AB plasma can be used for any patient but is especially needed for emergencies, for babies, and for those with weakened immune systems.

PREFERRED DONATION METHODS

- Plasma
- Platelet

UNIVERSAL

ANYONE can receive your plasma and platelets!

FOR YOU

You can receive negative types A, AB, B and O.... that's only 18% of the population.

Right Time. Right Type.

To schedule, visit www.bloodcenterimpact.org, call (800) 747-5401 or email impact@mvrbc.org.
You're Our Type!

Learn how you can change the world, one pint at a time.
